NEW YORK, Doc. 28.—After having reached 110 per cent on the Stock Exchange and 125 per cent on privately arrunged loans, the rate for call money late this afternoon fell to 6 per cent, Just before the close it advanced again and closed at 15 bid; offered at 20.

As the money rate fell the stock market advanced, said approximately the highest prices of the day were reached at the close. The stock market, except for an early decline in industrial shares, was fairly steady throughout the money tension.

The advance in the Interest rate was sensationally rapid. From 50 there was a quick advance to 75, 90 and then 100 per cent. When 100 per cent, was touched all records since December, 1990, were broken. In that year 189 per cent, was paid for call loans, After leading at 100 to-day there were loans at 100 per cent, the 30 per cent, quotation did not last long, and at 11 o'clock 10 was paid for funds, and shortly afterwards a loan of \$40,000 at 90 to 100 the per cent. was reported.

Russell Sage, through his representative, was reported.

Russell Sage, through his representative, was reported to have loaned \$6,00,000 at 90 to 100 per cent.

More than the usual discrimination was shown by the banks in the collateral accepted by them for loans. The rate for 50 and 90 days 'toam to-day was 6 per cent, and a "commission," making such loans really equivalent to 9 per cent. By 1 o'clock the demand for money seemed to have been largely supplied, and money was lent at 60 per cent. It have been a for 50 and 20 per cent. From 20 per cent, there was a further drop to 6 per cent, and at 2:45 the quoted rate was 60 per cent.

President Hepburn, of the Chase National Bank, said to-day:

"The enormous volume of business which obtains throughout the country is making a strong demand upon the banking power, and naturally has materially advanced the rate of interest. The foreign exchange credit, which the country would normally have as much present the rapid marketing abroad of cotton for higher backanage by our credit and marketing abroad of cotton for higher backanage by our credit with olding of octton for higher backanage by our credit with olding of cotton for higher back and have found a per limitally responsible for the high rates of interest. Also Reminiscent Regarding Incidents of His Boyhood.

The old tanks returned to the fold this morning and were greeted pleasantly by Justice John Jeter Crutchfield, who sat in his revolving chair and reviewed the parade of the chunks of humanity. "Where's you get 'em?" he asked of the policemen.

"Went out in the by-ways and lighways and gathered them in that they might feast of the knowledge that is generated here," solemnly spake the blue-coats as they stretched themselves from the bench and yawningly kiesed the Book.

Then the One John flung himself into a retrospective mood and talked about the days of long ago when he was a barefooted boy and there were no such things as primaries, election investigations of cetera. He called the scene there was playing and singing by those who had consented the Book.
